Hose, cord and cable reels

 **REELCRAFT**®

QuebecHydraulique.com™

Why use hose reels?

Why use hose reels? Because they make hose handling more efficient and safer. Your hoses, cables and cords will last up to five times longer. You will improve hose management, which decreases labor costs. Your chances of injuries from tripping

hazards will decrease, which saves lost work time, medical bills and higher insurance. You also save the expense and time to replace expensive hoses, cables and cords that get run over by fork lifts and other vehicles.

Series 7000 - Photo courtesy of Sage Oil Vac

Five reasons why hose reels add value

Improve efficiency

Hoses, cable and cords are where you want/need them.

Increase safety

Reduce tripping accidents and lost work time.

Minimize leakages

Reduce costs of air and water leakages.

Reduce hose wear

Hose and cord on reels can last up to five times longer.

Increase productivity

No more tangled hoses improves efficiency.

Series 30000 - Photo courtesy of 1st Attack Engineering

OSHA says reduce your trips and falls

"There are many situations that may cause slips, trips and falls. The controls needed to prevent these hazards are usually obvious, but too often ignored, such as... coiling up extension cords, lines and hoses when not in use and keeping electrical and

other wires out of the way." OSHA's "Fall Prevention Tips" include, "Practice good housekeeping. Keep cords, welding leads and air hoses out of walkways or adjacent work areas."

Same-day quick ship program offers fastest service

Because we are centrally located in the US and have three North American warehouses, upon request, we can quickly ship our standard products the same day for domestic orders of ten or fewer standard models.

Orders must be received by 1:00 pm Eastern Time. Look for the shipping icons in this catalog for designated models. For the most current list of Quick Ship reels, please visit www.reelcraft.com.

Two Year Limited Warranty and Return Policy

Reelcraft now offers a two-year limited warranty. All reels manufactured by Reelcraft Industries, Inc. are warranted to be free of defects due to faulty material or workmanship for 24 months from date of shipment. Exception: LD, LG, LH cord reels - 1 year; hose and light bulbs - 6 months. Normal wear and tear is not considered a defect in material or workmanship. For complete warranty information, online warranty registration and return information please visit www.reelcraft.com or call Reelcraft's Customer Service Department toll-free at 1-855-634-9109.

***Please refer to the online catalog for the most current and up-to-date product information.**

Reelcraft: Better by Design

Reelcraft's reels are better by design because of our lasting commitment to excellence. Our engineering team is well known for designing durable, high quality products. Our standard

features include durable, corrosion-resistant powder coat paint, multi-position guide arms for versatile mounting options and heavy-duty, reinforced steel stampings for

increased strength. Our reels are permanently factory-lubricated for a long, trouble-free service life. All of these features, and many more, add up to make "The Reelcraft Difference."

Reinforced Steel

The steel-stamped guide arm is reinforced to reduce bending due to angular pull.

Improved Connection

The elongated brass connector and proprietary adhesion process provide a better crimp to the hose.

Stress-Free Swivel

Our full-flow design combines the highest grade seal design with supporting bearing surfaces to insure the longest possible life.

Corrosion-Resistant

Steel components are individually powder coated to virtually eliminate corrosion.

Long Service Life

Field-proven swivel assures long service life.

Kinkless Hose

High quality PVC hose is specially blended for use on reels

Sealed Connection Points

Swivel and hose inlet connections seal against leaks

Adjustable Guide Arm

Multiple guide arm positions provide versatile uses and easier field adjustment

Trouble-Free Performance

Fewer components increase the service life of the reel and improve performance

Long Life Drive Spring

Drive mechanism is enclosed for protection against the environment. Declutching arbor virtually eliminates possibility of spring damage due to reverse winding of reel spool.

Robust Latch

Wide profile combined with special spring assures maximum service life.

Structural Strength

Welded heavy gauge steel frame includes a robotically welded base with stiffening ribs for lighter weight, yet stronger components for ease of handling and installation.

Easy to Mount

Attaches to most structurally sound surfaces. Edges are curved for safety.

Finish with Quality

Our components undergo a special five-stage cleaning process and are individually powder-coated for the highest quality paint adhesion. Excess powder is reclaimed to be environmentally friendly.

Shown: 7850 OLP

To place an order, please advise:

1. Model number.
2. Product to be handled such as air, oil, water, etc.
3. Maximum operating pressure in P.S.I.
4. Maximum operating temperature in degrees Fahrenheit.
5. Hose inside and outside diameters and length.

6. Desired guide arm position by adding one of the suffixes to the model number. Example: 5635 OLPSW for side wind.

Additional Considerations:

A flexible connection between the reel and the source of supply is required to prevent possible misalignment and binding. Non-flexible connections will void

the warranty. The pressure rating of inlet hose must be equal or greater than the rating of the reel.

***Consult Reelcraft for application recommendations if installation height is more than 16'.**

Accessories

Reels ordered with hose and bumper are assembled complete and ready to install. Order bumpers separately for reels without hoses.

Additional questions? Please visit our website or call for assistance. For more than 45 years, our specialty is offering hose handling solutions.

Online Interactive Catalog

Reelcraft's Online Interactive Catalog

Complete Online Catalog of Products

Reelcraft's interactive catalog gives users the ability to self-select the product they need for their specific application. The products are grouped into categories by application and gives the user the choice to narrow their search by filters such as hose/cord length, drive type, reel grade, in stock items, etc. The individual product pages include all the available information for each product including:

- Product specs and dimensions
- Service manuals
- Tech bulletins
- Videos
- Available inventory
- CAD drawings
- FAQs
- Quote request form
- Available parts and accessories
- 360° images

Parts and Accessories

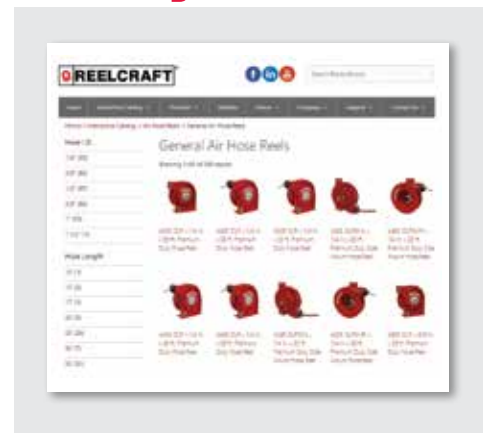

The interactive catalog also contains an extensive listing of parts and accessories. Search the catalog of over 350 hose assemblies by hose I.D., length, pressure rating, or end fitting size. The catalog also contains information for the following items:

- Replacement hose assemblies
- Inlet hose assemblies
- Bumper stop assemblies
- Roller guide assemblies
- Swing brackets
- Pivot bases
- Swivel assemblies

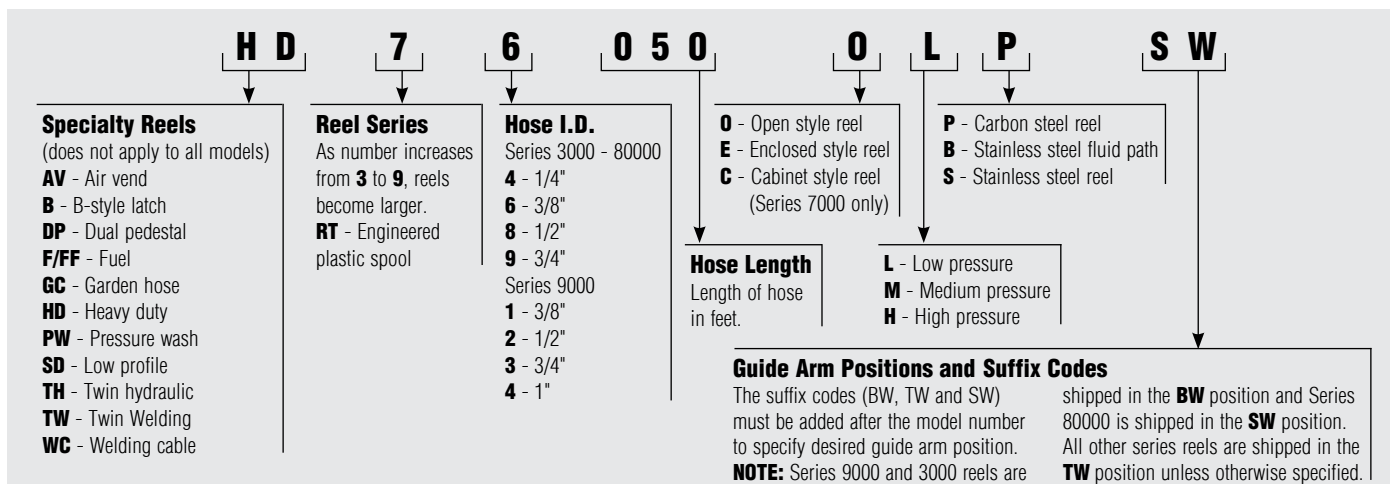

Visit www.reelcraft.com/catalog to start your search!

Easy to use!

Reel Configurator & Custom Built Reels

Reelcraft's Online Reel Configurator

Large Frame Reels - 1/2" to 2" ID; hose lengths to 610' and more
Reelcraft's online reel configurator quickly and accurately quotes large frame reels. Simply answer a few questions about your reel needs, submit your configuration and receive your custom quote within 1 business day. The new configurator allows for shorter lead times for large frame reels and increases the accuracy of the available combinations of reel options.

Series 2400 Reels
1/2", 3/4", 1" Hose I.D.

Series 3900 Reels
1", 1 1/4", 1 1/2" Hose I.D.

Series 3700 Reels
2" Hose I.D.

Fast quote time - receive your quote in approximately 1 business day

More accurate quotes - eliminates incompatibilities and increases the accuracy of available combinations

Reduced product lead time - 2 weeks with most configured products

Now available online!

Don't see what you need? Reelcraft's engineered products group can custom build to your specifications.

Custom Built Reels

Made in USA 

Reelcraft's engineered products group custom builds reels to your specifications. Our special engineered products are developed for demanding applications in areas such as marine, military, aviation, hydroseeding, sewer and well cleaning, offshore oil rigs, robotic cable and much

more. We offer flexibility, competitive pricing and a lasting commitment to excellence. For more than 25 years, Reelcraft's engineered products group has produced custom products to meet individualized requirements.

Reelcraft's Capabilities

Very few size and weight constraints

We build to meet most extreme size and weight constraints.

Special finishes/paint options

Options include CARC paint, marine grade epoxy, stainless steel, liquid enamel coat paint and powder coat paint in any color. See page 49 for color options.

Various drive types

Manual crank, motorized, spring driven, hand-over-hand and more.

Wide range of pressures

Wide pressure range from full vacuum to 15,000 PSI.

Unique options

Rewind assist, hose tensioning bars, multiple fluid paths, level rewinds, controls, sensors and much more.

Medium Duty Spring Retractable Reels Air/Water/Oil/Grease - 1/4", 3/8", 1/2" I.D.

Series RT is an economical choice for a medium duty, light weight, spring driven hose reel for applications that are less demanding, yet require a product that can withstand industrial and commercial use. To extend service life, the spool is constructed from a rugged engineered plastic and the industrial-grade drive spring is protected from the environment. Guide arm adjusts to seven positions.

*Floor tank mount only - do not mount on ceiling. Low pressure reels furnished standard with PVC hose. Compressed air hoses should not be converted to oxygen service - may cause explosion when O₂ mixes with fuel. Medium pressure reels furnished standard with S.A.E. 100R1-AT (1/4" and 3/8") or S.A.E. 100R17 (1/2") one wire braid hose. High pressure reels furnished standard with S.A.E. 100 R2T two wire braid hose. Reference page 6 for guide arm positions.

Heavy Duty Spring Retractable Hose Reels

Air/Water/Oil/Grease - 1/4", 3/8", 1/2", 3/4" I.D.

Series 7000 is very robust and ideal for the most demanding applications. The reel's base and guide arm are formed from high-grade steel and engineered with structural forms and gussets to yield the greatest amount of strength. The standard low pressure hose is for air or water service only. The basic reel without hose can be used for air, water or oil. Consult Reelcraft for other products and hoses. Guide arm adjusts to 7 positions.

7850 OLP

Dimensions

7000

	in	mm
A	20 1/4	514
B	19 3/4	502
C	7 13/16	198
D	3 7/8	98
E	7	178

For all metric thread connections over 1/2" add the suffix number 70 to indicate BSPT threads - example 7900 OLP70.

Applications

- Industrial
- Automotive service centers
- Transmission shops
- Fleet maintenance facilities
- Pneumatic tools
- Aircraft maintenance
- Tire stores
- Agriculture
- Service trucks
- Wash down

Heavy Duty Mobile Base Hose Reels | Series HD70000

HD76100 OLP

Heavy Duty Spring Retractable Reels

Air/Water/Oil/Grease - 1/4", 3/8", 1/2", 3/4" I.D.

Reelcraft's Series HD70000 hose reels are designed to accommodate up to 100' of 3/8" I.D. hose or 75' of 1/2" I.D. hose. The heavy duty base design, all steel construction and a baked-on powder coat finish combine to produce a rugged, corrosion-resistant product. A newly redesigned latching mechanism provides longer service life of the latch components. The one piece guide roller design and stainless steel pins offer greater strength and easier serviceability. The high quality, die cast aluminum hub and two sealed ball bearings produce a smoother spool rotation and easier operation.

**Made
in USA**

E	7	178	8 ¹ / ₄	210

Features

- **Compact design** - Reels are 25% smaller than our heavy duty Series 80000 reels.
- **Drive spring** - The containerized drive spring offers easier handling during maintenance (size index 2 models only).
- **Versatility** - The guide arm adjusts to seven different positions for versatile mounting and a wide range of applications.

Heavy Duty Compact, Dual Pedestal Reels | Series DP5000 / DP7000

Heavy Duty Spring Retractable Hose Reels

Air/Water/Oil/Grease - 1/4", 3/8", 1/2" I.D.

Reelcraft's new compact dual pedestal Series DP5000 and DP7000 feature an innovative, non-welded, interlocking base. Independent testing to military standards has proven the reel stand up to heavy vibration, which makes them especially strong and ideal for truck-mounted applications. Superbly engineered dual pedestal base and guide arm are structurally reinforced. All-steel construction and a baked-on powder coat finish combine to produce a rugged corrosion-resistant product suitable for a wide variety of heavy duty applications.

DP5835 OLP

Made in USA

DP7850 OLP

Meets or exceeds military vibration for Truck Transport test

**MIL-STD-810F
500,000 mile equivalent**

Features

- **Superior corrosion-resistance** - A double adhesive gasket seals the spring case.
- **Ease of operation** - The latch pawl is mounted on the guide arm to prevent latch out at full extension.

Heavy Duty Spring Retractable Reels

Air/Water/Oil/Grease - 3/8", 1/2", 3/4", 1" I.D.

Reelcraft's Series 80000 and D80000 spring retractable reels incorporate the most current design and manufacturing techniques to increase service life and performance. The all-steel construction and a baked-on powder coat finish combine to produce a rugged, corrosion-resistant product suitable for a wide variety of heavy duty applications. Series D80000 reels are also supplied with Reelcraft's ball-bearing style swivel.

For all metric thread connections over 1/2" add the suffix number 70 to indicate BSPT threads - example 83050 OLP70.

Features

- Dual pedestal base and guide arm design are structurally reinforced.
- Five-in-one, heat-treated aluminium casting incorporates main shaft, ratchet, spring arbor and inlet/outlet plumbing in one-piece casting.
- Containerized spring assembly provides safer and easier handling during maintenance.
- Two sealed ball bearings for smooth rotation of main shaft.

Spring Retractable Low Profile Reels

Air/Water/Oil/Vacuum Recovery - 3/4", 1" I.D.

Series SD10000 hose reels are designed to facilitate larger diameter 3/4" and 1" hose up to 50 ft. They feature a high quality external drive spring and a heavy gauge all-bolted together frame. The containerized external drive spring assembly offers easier handling during maintenance. This is the most compact reel in its class, making it ideal for mounting in truck cabinets or other areas where space is limited.

Features

- Reel features extreme space saving design, ideal for applications with minimal space constraints.
- Reel is built with high quality industrial grade components for superior strength and design.

SD13050 OLP

- High impact UHMW guide rollers
- Corrosion resistant powder coat paint
- 1 3/8" solid main shaft
- Four 5/8" tie rods maintain reel integrity and provide added support
- Ultra low profile design for mounting in cabinetry
- Ductile iron fluid path parts
- Stainless latch spring and widened aluminum ratchet/pawl
- Torsion spring for longer service life

All models are bottom wind unless otherwise specified. Additional bracket required for other guide arm positions.

Vehicle-Mount Hose Reels | Series 9000

Ultimate Duty Spring Retractable Reels

Air/Water/Oil/Grease - 3/8", 1/2", 3/4", 1", 1 1/4", 1 1/2" I.D.

Series 9000 mobile base reels offer the greatest amount of stability for high volume air, water, oil, and grease. Ideal for portable service trucks, permanent service or plant work areas. A durable baked-on powder coat finish produces a rugged corrosion resistant product suitable for a wide variety of heavy duty applications. Basic reels without hose will handle air, water or oil; consult Reelcraft for other applications.

Twin Hose, Spring Retractable Reels

Dual Hydraulic - 1/4", 3/8", 1/2" I.D.

Reelcraft's hydraulic reels are used for medium pressure dual hydraulic hose applications and are ideal for operating hydraulic cylinders, tools and equipment. All twin hydraulic models include a full flow, high volume swivel for maximum product delivery. Series TH reels incorporate contemporary engineering and manufacturing techniques for high quality performance. Reels are all-steel construction and compact for applications with critical space requirements.

*Models equipped with UL330 and cUL Nitrile synthetic rubber (ORS) hose. 250 psi minimum burst (17 Bar). Flow rates of fuel hose are reduced by 30% with addition of internal spring type bend restrictors. For example, flow rate of F7925 OLP with internal bend restrictors is 9.0 GPM at 40 psi; flow without internal bend restrictors is 13.0 GPM at 40 psi. See page 6 for guide arm positions.

GHC3100 N

NEW!

GS3050

Static Discharge / Grounding Reels Series G 3000

Static discharge reels are used to ground equipment operating in hazardous atmospheres. When properly clamped to ground, the static discharge reel dissipates static electrical buildup, reducing the chances of sparking and the potential for explosion.

Stainless Steel Spring Retractable Reels

Air/Water/Oil - 3/8", 1/2", 3/4", 1" I.D.

Reelcraft's stainless steel hose reels are ideal for food processing, pre-rinse, wash down, chemical transfer and industrial-solvent handling. Also suitable for coastal, off-shore and on-board ship in marine applications where the harsh environment of salt water spray requires the use of stainless steel hose reels. Swivels include Viton® O-rings. Buna seals are available for water applications by adding a -B at the end of the model number.

Note: Standard latch parts are made from aluminium. Series 80000 and D80000 stainless reels have an aluminum fluid path. Stainless latch parts and fluid path are available as a standard option by placing a -S at the end (example: OLS-S). Carbon steel reels with stainless steel fluid path are available as standard. *Stainless swivel not available on Series LC reels.

7800 OLS

D9300 OLSBW

Features

- Full-flow stainless steel shaft and swivel assures maximum product delivery. **Exception:** Series 80000 only on OLS-S models.
- Heavy duty brackets eliminate bending due to angular hose pull.
- Nylon guide rollers reduce hose drag and abrasion.
- Vibration-proof self-locking fasteners assures assembly integrity.
- 304L stainless steel

Spring Retractable Pre-Rinse Reels - 3/8" I.D.

Engineered for use in environments such as restaurants, institutions, and home and garden applications. Reelcraft's pre-rinse reels include a standard lever-operated spray valve. Available in stainless or powder-coat finish. Rated for hot water up to 180 °F (82 °C).

Hot water washdown and food prep

Commercial use, restaurants, schools, home/garden and more

Pre-Rinse Reel Features

- Lever-operated spray valve is included
- Optional 360° rotating swivel (600248) offers 20° of angular motion
- Push-Lok®, field replaceable, hose-end fittings
- Reels can be mounted on the wall, ceiling, or under a counter, making water conveniently available

Made in USA

A5835 OLBSW23

Spring Retractable Potable (Drinking) Water Reel - 1/2" I.D.

Designed for potable water systems, the A5835 OLBSW23 is suitable for use as a drinking water system component though does not include the NSF/ANSI 61 Certification. Fluid path is stainless steel and CPVC material.

Drinking Water

Boats, RVs, buses and much more

Potable Water Reel Features

- Stainless steel, full flow shaft and PVC swivel
- Convenient fast hook-up and disconnect
- Drain and standard female garden hose outlet fitting are standard
- Maximum operating temperature 73 °F (23 °C)

Spring Retractable Composite Reels

Air/Water/Chemical Delivery/Welding

1/4", 3/8", 1/2", 5/8" I.D.

Series S reels are economical, lighter weight, easy to handle and meet the demands of a medium-duty industrial grade reel for continuous operation. Made of corrosion-proof, tough polypropylene, extensive tests have shown it to be highly resistant to the vast majority of acids, alkalis and UV rays. The design protects the hose and allows easy cleaning of both hose and reel. Wall, ceiling or floor mount.

A unique combination of composites and metals

The tough composite polypropylene outer case houses solid brass swivel and fluid path, a steel main shaft and high quality spring steel motor.

Corrosion-resistant, durable

The tough composite polypropylene outer case is UV stabilized and resistant to most acids and alkalis with excellent impact resistance.

Positive latching system

The design of the latching system ensures positive latching in any mounting position.

Unique mounting

The bracket supplied with the reel allows mounting in any position.

Lighter weight

The Series S offers distinct weight advantages due to the composite case construction.

Pressure Wash Reels | Series PW / H18006 / 30000

PWD76075 OHP

CA38106 M

Made in USA 

Spring Retractable, Hand Crank, Motor Driven

Air/Water - 1/4", 3/8", 1/2" I.D.

Compact design and quality steel construction are incorporated into Reelcraft's full line of pressure wash reels, rated up to 5000 psi. Series PW, H18006 and 30000 reels are able to carry 50 to 425 feet of tangle-free hose and are complete with a high pressure water swivel for maximum product delivery. The high pressure water swivel is designed to handle a broad range of pressures, temperatures and chemicals; perfect for agricultural/marine, equipment cleaning and pressure washing applications.

Applications

- Agriculture
- Equipment cleaning
- Marine
- Pressure washing

Light Industrial Hand Crank Hose Reels

Reelcraft's Series C hose reels are designed for lighter-duty applications that require longer lengths of hose. The Series C incorporates a balanced brass swivel, brass inlet, lighter weight components and forward-thinking design. Reels in this family benefit from a tough, corrosion-resistant powder coat paint. All reels feature a drag break to prevent de-spooling when reel is not in use.

Series CU Air/Water - 3/8", 1/2" I.D.

Series CU features our most rigid base design in this series and supports the reel on either side.

Series CT Air/Water/Pressure Wash - 3/8", 1/2" I.D.

The Series CT frame features a tubular design. The inlet is fed through the center of the tube frame, protecting the inlet hose and creating a cleaner look over all.

Series CM Pressure Wash - 3/8" I.D.

Series CM reels offer the greatest amount of flexibility in this series by featuring a modular mounting platform. Reelcraft can configure custom mounts upon request or the customer may choose to supply their own.

Technical drawing of a speaker showing dimensions B, C, D, and E. The drawing includes a side view and a front view. The side view shows a depth of 13 1/4" (337) and a central opening of 6" (152). The front view shows dimensions B (top width), C (mounting hole spacing), D (mounting hole diameter), and E (bottom width). The mounting holes are labeled Ø .335 (4) Places.

Hand Crank / Motor Driven Reels | Series H / 30000

Medium Duty Hand Crank Reels

Series H - Air/Water/Oil/Grease - 3/8", 1/2", 3/4" I.D.

Series H is an economical reel designed for medium duty applications requiring long lengths of hose. It is equally suited for plant or field use such as turf care, pest control, steam cleaning and more. Shipped completely assembled, ready to install.

Made in USA 

H16000

Hand Crank
CA32112 L

Made in USA 

Heavy Duty Hand Crank and Motor Driven Reels

Series 30000 - Air/Water/Oil - 1/4", 1/2", 3/4", 1" I.D.

Reelcraft's Series 30000 reels are designed for rugged, heavy duty applications requiring long lengths of hose and large storage capacity. All-bolted unitized construction, full flow swivel and heavy gauge steel frame, spool and drum ensure longest service life. Series 30000's vibration-proof, self-locking fasteners are ideal for industrial or field use such as turf care or pest control.

- ✓ Adjustable spool rotation drag that eliminates hose backlash
- ✓ Nickel-plated swivel with four O-ring options: AFLAS® (standard), Buna, Viton®, FKM or -EPR seals

- ✓ Motor mounting at either end of reel
- ✓ Optional lock pin to prevent spool rotation when the reel is not in use, S600874

Hose Reel and Trailer

Made in USA

Reelcraft's rugged, self-contained hose reel trailer easily attaches to most off-road vehicles or carts and is pre-drilled 12" or 18" for Series 30000 hose reels. Reels hold up to 100' of 1" I.D. water hose.

Makes spot watering easier, quicker and more convenient. Applications include golf courses, athletic fields, sports turfs, grounds maintenance, parks and rec, agriculture and nurseries.

600910

Hose Reel and Trailer Packages	
Package	Items Included
600911	Trailer (600810); Hand rewind hose reel (CB37118 L); 10' lead hose (S600982-10); Roller bracket, top wind (S602133-3)
600910	Trailer (600810); 12 V DC Motor driven hose reel (EB37118 L12D); Switch, complete (S600808); Battery box, battery not included (S600812); Chain guard (S600518); Roller bracket, top wind (S602133-3); Roller bracket, bottom wind (S602132-3); 10' lead hose with 1" I.D. (S600982-10)
600810	Trailer only - does not include hose or reel. Reels designed for trailer include motor driven EB37118 L12D and hand crank CB37118 L. Trailer weight 154 lbs / 70 kg.

Trailer Dimensions

Trailer designed for off-road use only, not for passenger transport. Maximum weight capacity 400 pounds. Maximum speed 15 miles per hour. Trailer, reel and accessories sold separately.

Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

Reelcraft's Reel Configurator

Large Frame Reels

1/2" to 3" I.D.; hose lengths to 610' and more

Reelcraft's new reel configurator quickly and accurately quotes large frame reels. Simply answer a few questions about your reel needs and the configurator can instantly quote your reel. It will also create a 3D model from which a sales drawing and bill of material can be generated that can be sent out for your review. The new configurator allows for shorter lead times for large frame reels and increases the accuracy of the available combinations of reel options.

Improved response time

The configurator has greatly improved our response time to the customer. The traditional 2-3 day quote time has been reduced to only 20 minutes.

More accurate quotes

The configurator's rules based system eliminates incompatibilities and increases the accuracy of the available combinations of reel options. It will also create a 3D model from which a sales drawing and bill of material can be generated that can be sent out for your review.

Reduced product lead time

The improved response time and quote procedure have also decreased the product lead time. The standard 4-6 week product lead time can be reduced to a mere 2-3 weeks with most configured products.

Current capacity

The configurator currently covers 85% of the standard large frame reels sold and manufactured by Reelcraft with hose I.D.'s ranging from 1/2" to 3". More sizes will become available as released.

For an accurate quote, please advise:

1. Product to be handled such as air, oil, water, etc.
2. Maximum operating pressure in PSI.
3. Hose inside diameter (I.D.) and length.
4. Desired drive type such as hand crank, electric motor, air motor, etc.
5. Any special or additional accessories needed.

NOTE: Not all options are available in every combination. All large frame reels are supplied without hose. Reelcraft's configured reels and custom reels are built to order and not returnable.

Contact Reelcraft to configure a reel for your application!

Custom Capabilities

Don't see what you need? Reelcraft's engineered products group custom builds to your specifications.

- Very few size and weight constraints
- Special finishes / paint options
- Various drive types
- Wide range of pressures

Series 1200 - 1/2", 3/4", 1" I.D.

Series 2400 - 1/2", 3/4", 1" I.D.

Series 3900 - 1", 1 1/4", 1 1/2" I.D.

Series 3700 / 5900 - 2", 3" I.D.

Series 6000 - 1 1/2", 2", 2 1/2", 3" I.D.

Large Frame Reels | Heavy Duty Solutions

Reelcraft's Engineered Product Solutions

Full Flow Design

The goose neck is contoured to match the drum diameter, which allows smooth hose wrapping and unimpeded flow.

Unitized Swivel

Less leak points, shorter profile and improved flow.

Long Service Life

Swivel incorporates a permanently lubricated ball bearing.

Adjustable Hose Tension

The brake can be adjusted to suit the application requirements.

Trouble-Free Rewinding

Chain and sprocket drive ensures smooth and consistent operation.

Long Service Life

The spool axle is supported by independent self-aligning bearing.

Free Rotation While Pressurized

The swing joint and spindle allows reel to freely rotate while fluid is pressurized.

Precise Rigid Construction

Proprietary unitized tie rods are zinc plated offering greater strength and resistance to vibration and corrosion.

Ultimate Corrosion Resistance

Individually powder coated components insure maximum coverage and resistance to corrosion. Stainless steel fasteners are standard.

**Meets or Exceeds
Military Vibration for
Truck Transport test.**

MIL-STD-810F
500,000 mile equivalent

Heavy Duty Large Frame Reels Series 1200

Made
in USA

1" fluid path for 1/2" through 1" I.D. hose

Rewind: Direct crank rewind or chain and sprocket drive powered by A.C. or D.C. electric motor, compressed air motor, or hydraulic motor. Crank is not supplied on power rewind models. A pin lock assembly is optional on manual rewind reels. A 3/8" pitch chain is standard.

Inlet: 1/2" up to 1" female/male NPT 90° swivel joint. Straight swivel joint may be specified at extra cost.

Gooseneck: 1/2", 3/4", 1" female NPT. Other sizes and/or threads, including garden hose thread, can be furnished when specified.

The standard color for this series is red. See page 49 for color options.

Shown with optional
three-way roller bracket.

Dimensions Diagram

Fluid Path Material: Ductile iron with E-Coat standard; carbon steel and stainless steel available.

Seal Material: Buna-N standard; AFLAS®, Viton®, FKM, EPR, and low-temperature Buna-N available. Standard temperatures range from -20 °F (-29 °C) to 225 °F (107 °C). Standard pressures to 3000 psi.

Popular pre-configured reels listed

Heavy Duty Large Frame Reels Series 3700 & 5900

2", 3" or 4" fluid path for 1 1/2" through 4" I.D. hose

Rewind: Gear-drive crank rewind or chain and sprocket drive powered by A.C. or D.C. electric motor, compressed air motor or hydraulic motor.

Inlet: 2" (3700) / 3" (5900) straight grooved fitting is standard. 4" (5900) 90° grooved fitting and 24" diameter drum is standard. 90° grooved fitting swivel joint available at extra cost.

Gooseneck: 2" (3700) / 3" (5900) / 4" (5900) female NPT. Other sizes and/or threads can be furnished and must be specified.

Fluid Path Material: Aluminum standard; carbon steel and stainless steel available.

The standard color for this series is red. See page 49 for color options.

Popular pre-configured reels listed

Large Frame Hose Reels | Series 3800

Heavy Duty Large Frame Reels Petroleum Service

1½" or 2" fluid path for 1¼" through 2" I.D. hose

Rewind: Chain and sprocket drive powered by A.C. or D.C. electric motor, compressed air motor or hydraulic motor.
30° manual rewind assembly available at extra cost.

Inlet: 90° 2" grooved fitting is standard. Straight swivel joints may be specified at no extra cost.

Gooseneck: 1¼", 1½" or 2" female/male NPT is available. Specify male or female fitting and hose size when ordering.

Brakes and locks: Manual friction brake and air operated caliper brake are standard.

Made in USA 

Dimensions Diagram

Fluid Path Material: Aluminum standard; ductile iron, carbon steel and stainless steel available.

Seal Material: (1¼ - 1½" I.D.) Low temperature Buna-N standard; Viton®, FKM and EPR also available.
(2" I.D.) Buna-N only. Standard temperatures range from -50 °F (-45 °C) to 225 °F (107 °C). Standard pressures to 300 psi.

The standard color for this series is red or gray. See page 49 for color options.

Model numbers are representative. Final part number assigned upon quote.

Don't see what you need? See page 27 to configure a reel for your needs. Available options and accessories listed on page 28.

Heavy Duty Single Wrap Reels Petroleum / Aviation Fuel Service

1 1/2", 2" or 3" fluid path for 1 3/8" through 3" I.D. hose

Rewind: Chain and sprocket drive powered by A.C. or D.C. electric motor, compressed air motor or hydraulic motor.

Inlet: 2" grooved fitting is standard for 1 3/8" through 3" ID hose. 3" grooved fitting is standard for 2 1/2" and 3" ID hose. 1 1/2", 2" and 3" NPT or BSPP available. 90° inlets available.

Gooseneck: 1 1/2", 2" and 3" NPT or BSPP. Specify male or female threads for gooseneck.

Brakes and locks: Air operated caliper brake and idler assembly is standard. Manual friction brake optional.

Materials: Standard frame and spool assembly are made of heavy duty steel construction. Also available in aluminum. The standard color for this series is red or gray. See page 49 for color options.

Fluid Path Material: Aluminum standard; ductile iron, carbon steel and stainless steel available.

Seal Material: (1 3/8 - 1 1/2" I.D.) Low temperature Buna-N standard; Viton®, FKM and EPR also available. (2 - 3" I.D.) Buna-N only. Standard temperatures range from -50 °F (-45 °C) to 225 °F (107 °C). Standard pressures to 300 psi.

Model numbers are representative. Final part number assigned upon quote.

Heavy Duty Power Cord Reels | Series L 4000 / L 5000 / L 70000

L 5550 123 3A

L 70100 123 3A

- Compact for critical space requirements
- Wall, ceiling or bench mount
- Adjustable cord stop
- All models supplied with cord are complete with a 4-5 foot pigtail and three-prong plug (except flying lead reels)
- Engineered for industrial/commercial use
- Durable abrasion and corrosion resistant baked-on powder coat finish

Single Receptacle Power Cord Reels

Lamp Specifications

	#1 - Incandescent Light (75 watt max) Single receptacle tool tap; Push-through switch, metal grounded guard
	#2 - Fluorescent Light (825 lumens) Durable shock absorbing lamp holder; Shatter-resistant tube with switch
	#5 - Incandescent Light (100 watt max) Rubber handle with vinyl-coated cage w/o switch or receptacle; Automatic on/off switch at reel guide arm; Complies with NEC #511-3, f., portable lighting equipment; meets OSHA requirements
	#6 - Fluorescent Light Explosion proof 13 watt fluorescent hand lamp; Automatic on/off switch at reel guide arm; Suitable for Class 1, Div 1 group C and D locations Note: Reel is not explosion-proof.
	#8 - Fluorescent Light (825 lumens) 120 V - 10 amp receptacle in-line on lamp handle; Scratch guard protects lamp cover
	#10 - LED Light (930 lumens) Two ultra-high intensity 4-watt LEDs; Single 3-watt end spot light; Polycarbonate shatter-resistant light tube; In-line tool tap, NEMA 5-15R configuration maximum 12 amp draw
	#11 - LED Light (930 lumens) Two ultra-high intensity 4-watt LEDs; Single 3-watt end spot light; Polycarbonate shatter-resistant light tube

Specialty Cord Reels | Series L NM400 / LS 5000

L NM440 103 X

NEMA 4 Power Cord Reels

Reelcraft's new Series L NM400 cord reels are NEMA 4 rated and designed for protection against water or dust, indoor and outdoor.

The guide arm is adjustable every 5° over a 270° arc allowing for the exact configuration to suit a wide range of applications. The container-ized drive spring allows for safer, easier handling during maintenance.

The heavy duty cast aluminum design and powder coat finish combine to produce a rugged, corrosion-resistant product.

Stainless Steel Power Cord Reels

Reelcraft's new stainless steel power cord reels are designed for applications where corrosion or sanitation are a concern. The heavy gauge 304L polished stainless steel provides an easy to clean finish and superior corrosion resistance. A robust collector ring assures maximum conductivity current flow. All reels listed include a 4-5' pigtail, multi-positional guide arm, and adjustable cord stop. Models listed are for indoor, non-weathertight applications only.

For indoor non-weathertight applications only, in non-hazardous areas. *Reel includes white cord and white electrical enclosure.

**The GFCI Receptacle is designed to protect from line-to-ground shock hazards. The Ground Fault Circuit Interrupter does not protect against short circuits or overloads; this is the function of the fuse or circuit breaker. Reference page 6 for guide arm positions. Swing brackets or pivot bases should be used if cords are pulled at more than 45°, see page 51.

Heavy Duty Cord and Cable Storage Reels

Hand Crank, Bevel Crank & Motor Driven

Keep long lengths of expensive electrical cord off the ground and out of harm's way with Reelcraft's expanded Series 30000 line, which includes cable storage reels and live power cord. The reels are designed to handle long lengths of 10/3, 12/3 and 16/3 cable.

Reelcraft's Series 30000 storage reels and live power cord reels are constructed of heavy gauge steel and are assembled with vibration-proof, self-locking fasteners to ensure assembly integrity. They undergo a five-stage cleaning process and are individually powder-coated for the highest quality, corrosion-resistant paint adhesion. Suited for indoor, non-weathertight applications only.

Cord/Cable Storage Reels

Cord and cable storage reels are used for storage, unwinding, and winding of conductive cord/cable. The reel is not intended to be live and the power source must be disconnected while reeling/de-reeling to avoid twisting the wires. Series 30000 cable storage reels are available in hand crank only.

CA30112-CS
Cable not included

Live Power Cord Reels

Live power cord reels have collector rings that allow the reel to wind/unwind the cord/cable with live current without twisting the wires. Live reels offer the advantage of using a reel as an effective piece of operating equipment rather than a simple device for the storage of cable or cord. Series 30000 live power cord reels are available in direct hand crank, bevel gear crank or electric motor-driven rewind.

Features

- Designed to improve safety in the work area with an increase in productivity and efficiency
- Full flow shaft swivels
- Independent dual swivel body manufactured from aluminum and hard-coated for wear resistance assures positive separation of gases due to its unique design
- Double-sealed, O-rings prevent leakage
- Swivel body and inlet are both permanently identified with machined grooves on the acetylene side to assure proper installation
- Durable abrasion and corrosion resistant baked-on red powder-coated finish
- Reel frame, spool and drum are fabricated of heavy gauge steel

Dual swivel is an exclusive Reelcraft design

Independent dual swivel body

manufactured from aluminum and hard coated for wear resistance. Assures positive separation of gases due to its unique design.

Double-sealed, special molded O-rings prevent leakage. Swivel body and inlet are both permanently identified with machined grooves on the acetylene side to assure proper installation. Available with TW5000 and TW7000 series reels.

Lighter weight for hose lengths up to 50'

STW3450 OLP
*See page 21 for additional details.

Dual welding, spring driven for high volume of gas

TW84100 OLPT
Available in T grade only

"T" Grade Fuel Gas Reels

"T" grade hose reels are used for a wide variety of gases such as mapp gas, propane gas, natural gas and fuel gases. When ordering any welding hose reels you must specify the type of gas being used. To order "T" grade reels, add a suffix "T" to the TW models. Example - TW5425 OLPT.

Welding Cable Reels | Series CEA / WC

WC7000

CEA30006

WC80001

Hand Crank / Spring Retractable Cable Welding Reels Series CEA / WC

- Designed to improve safety in the work area with an increase in efficiency and productivity
- Cable reels have a current path through a continuous 400 or 700 AMP, 90 V DC (maximum) rated enclosed slip ring
- Keeps work area and vehicles better organized, resulting in better space utilization
- Stores cable when not in use, eliminating tangled, kinked welding cables
- Welding cable reels store work lead or electrode lead, up to #4/0, safely and effectively when not in use. Each lead requires a separate reel. When welding also refer to ANSI/Asc Z 49.1
- Maintains proper bend radius of cables, providing longer cable life

Hand Crank Reels

Up to 150' fuel gas
Up to 200' 12/3 cable

Ideal for applications where space, weight and flexibility are key, these reels are designed for manual winding of air/water/fuel gases hose, electric cord and welding cable. Versatile in function, select configurations to suit specific needs. Safe-T-Reels offer trouble-free management of large capacities of hose or cord.

Caution: Compressed air hoses should not be converted to oxygen service. Compressed air hoses are often contaminated with an oil coating, which can react explosively when oxygen is introduced. Oxygen/Acetylene cannot be combined with welding cable or power cord. **Note:** Models listed are without hose and/or cable except where listed. Weights listed above are actual product weight without packaging materials. Safe-T-Reels are available with cable or hose and in various combinations. Please consult Reelcraft customer service for additional information.

Tool Balancers | Series TB / TBL

Top Five Benefits

1. Balances the weight of assembly tools, making them nearly weightless
2. Reduces operator fatigue
3. Improves safety and ergonomics
4. Increases productivity by keeping tools positioned for immediate use with minimal operator motion
5. Reduces tool damage by preventing tools from being accidentally dropped

TB 1-5 Dimensions

Model	Min - Max Load		Cable Length*		Shipping Weight	
	lbs	kg	ft	m	lbs	kg
TB 01	0.0 - 1.5	0.0 - 0.7	6	1.8	1.0	0.5
TB 03	1.5 - 3.0	0.7 - 1.4	6	1.8	1.0	0.5
TB 05	3.0 - 5.0	1.4 - 2.3	6	1.8	1.5	1

*Cable lengths listed are "active" or "working" cable. Safety tool clip and cable stop included. Maximum temperature 150 °F (65 °C).

Model	Min - Max Load		Cable Length*		Shipping Weight		Ratchet Lock
	lbs	kg	ft	m	lbs	kg	
Constant Pull Reels - may be adjusted to balance through 6-18 in (152-457 mm) range.

*Cable lengths listed are "active" or "working" cable. Safety tool clip and cable stop included. Maximum temperature 150 °F (65 °C).							

Tool balancers make tools nearly weightless, reduce fatigue

TB 10-23 Dimensions

Optional Accessories

Cables can be combined for added length

Overhang Cable	
Model No.	Length
600605-3	3.0 ft / 91.5 cm
600605-5	5.0 ft / 152.4 cm
Safety Cable/Chain	
600603*	1.0 ft / 30.5 cm
600604**	1.0 ft / 30.5 cm

*Nylon covered steel cable (1 to 6 lbs models)
**Steel link chain (10 to 23 lbs models)

Strongly recommended, secondary steel cable or steel link chain. Prevents balancer from accidental fall. Balancers have extra holes for cable or chain.

Nylon covered steel cable with safety clip. Brings tools closer to work area without unwinding cable from reel or mounting reel at lower height.

Special Powder Coat Paint Colors

Special Powder Coat Paint Colors

Customize your small or large frame reel color with special paint options

Reelcraft is most well-known for its bright red reels, but we also paint secondary colors and special order colors. Reelcraft uses a rigorous cleaning process on raw parts prior to paint. After this process is complete, parts are then coated with a high quality, durable polyester powder coat paint for a uniform, corrosion resistant finish that will last through years of service.

Reelcraft frequently paints secondary colors - white, black, blue and gray. There is no set-up charge for secondary colors, only a variable per unit charge. We thoroughly clean our booths and tools prior to painting special order colors therefore require a one-time set-up charge in addition to the variable per unit charge.

RT650-OLP-40BL

RT650-OLP-35BK

RT650-OLP

Primary Colors - NO CHARGE

Reelcraft is most well-known for its bright red reels, but we also paint gray on large frame reels at no extra charge. Gray must be specified at time of order.

These four-way roller guide assemblies are for use with reels on cabinet door openings and for similar locations where sharp edges may cut or damage the hose. The four-way design permits pulling or retracting hose at any angle. Model S270109 has nylon rollers mounted on an 11 gauge steel frame with pre-drilled mounting holes.

Note: A hose bumper should be used with the four-way roller hose guide assemblies to prevent damage to rollers and nozzles.

Additional Accessories Not intended for mobile applications.

<p>S600608</p> <p>600801</p> <p>600801-12</p>	340° Pivot Base Aligns reel to the direction of hose or cord run. May be mounted with reel upright or hanging. Weight 10 lbs (5 kg). Note: Use if hoses or cords are pulled at more than 45°. Refer to www.reelcraft.com/accessories for dimensional information.	For Reel Series RT / 4000 / 5000 / 5005 / 7000 / HD70000	Part # S600608

Mounting channels can be mounted end to end to mount three or more reels. To permit the mounting of Reelcraft Series RT, 4000, 5000, 5005 and electric cord reels on mounting channel, an adaptor assembly must be used (#600230). 600230 Adaptor Assembly Used with top channels and beam clamps only.	80000 / D80000 / DP5000 / DP7000	600980

Roller Guide Assemblies

Three-way rollers		Four- way rollers (multi-position)	
			
Spools and blocks are chrome-plated to resist corrosion and abrasion. Rollers speed handling and reduce wear on hose. All painted parts are finished with durable abrasion resistant baked-on powder coat. Delrin bearing surfaces give a quiet operation with minimum wear and all features combine to give trouble-free maximum service life.			
For the special UHMW composite rollers, add a "U" at the end of the part number. (Example: S600693-1U)			
Hose Reel Spool Size	Bottom Wind Roller bracket assembly model number	Top Wind Roller bracket assembly model number	Multi Position Roller bracket assembly model number
